

A SOCIAL STORY

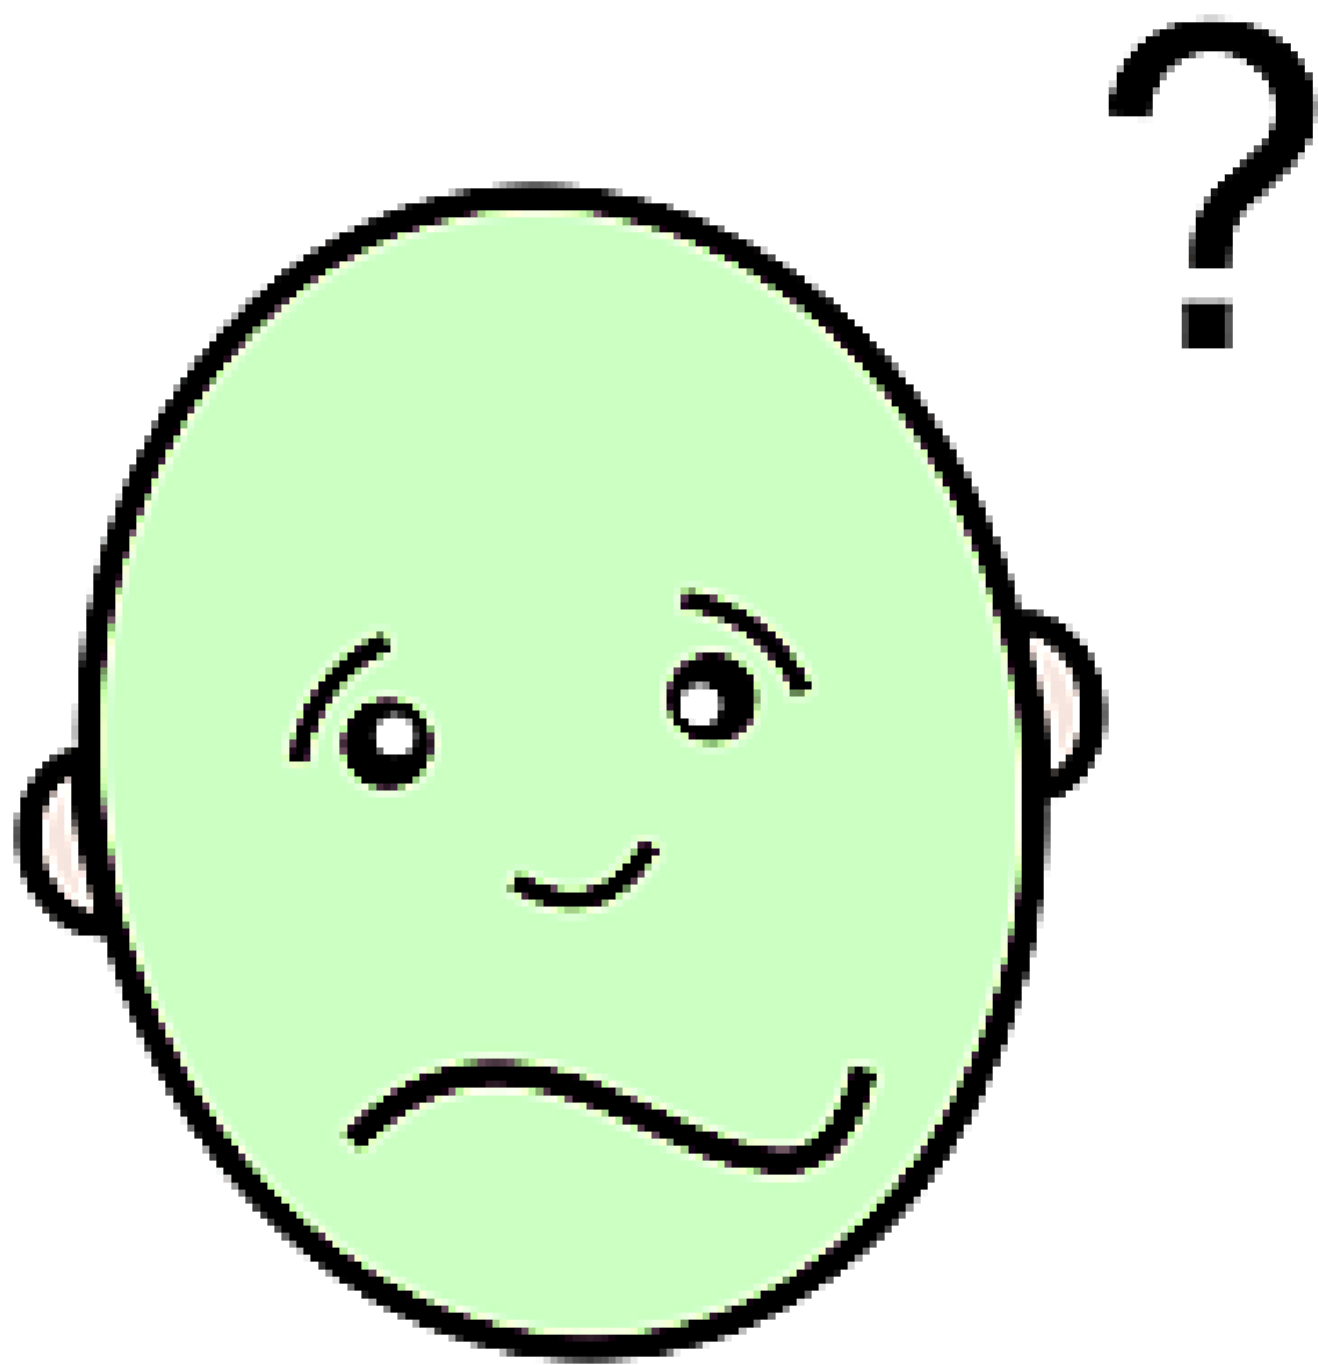

Listening & Following directions

It is important to listen
when somebody is
speaking to me

If I don't listen I may not
understand things that I
need to do

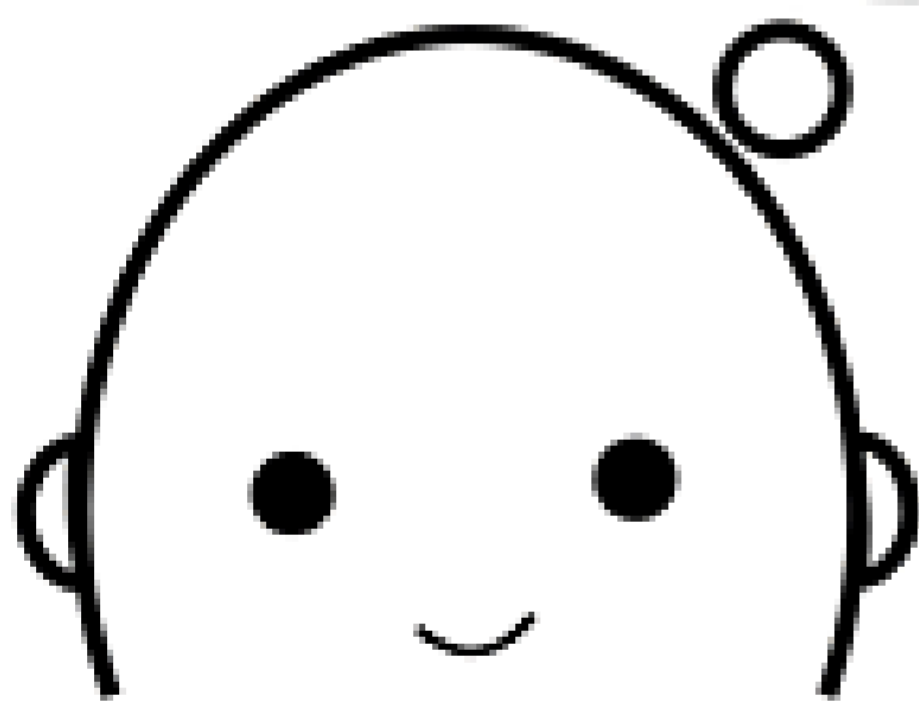

OR

things I need to
remember

It is important to follow
the directions I have been
given

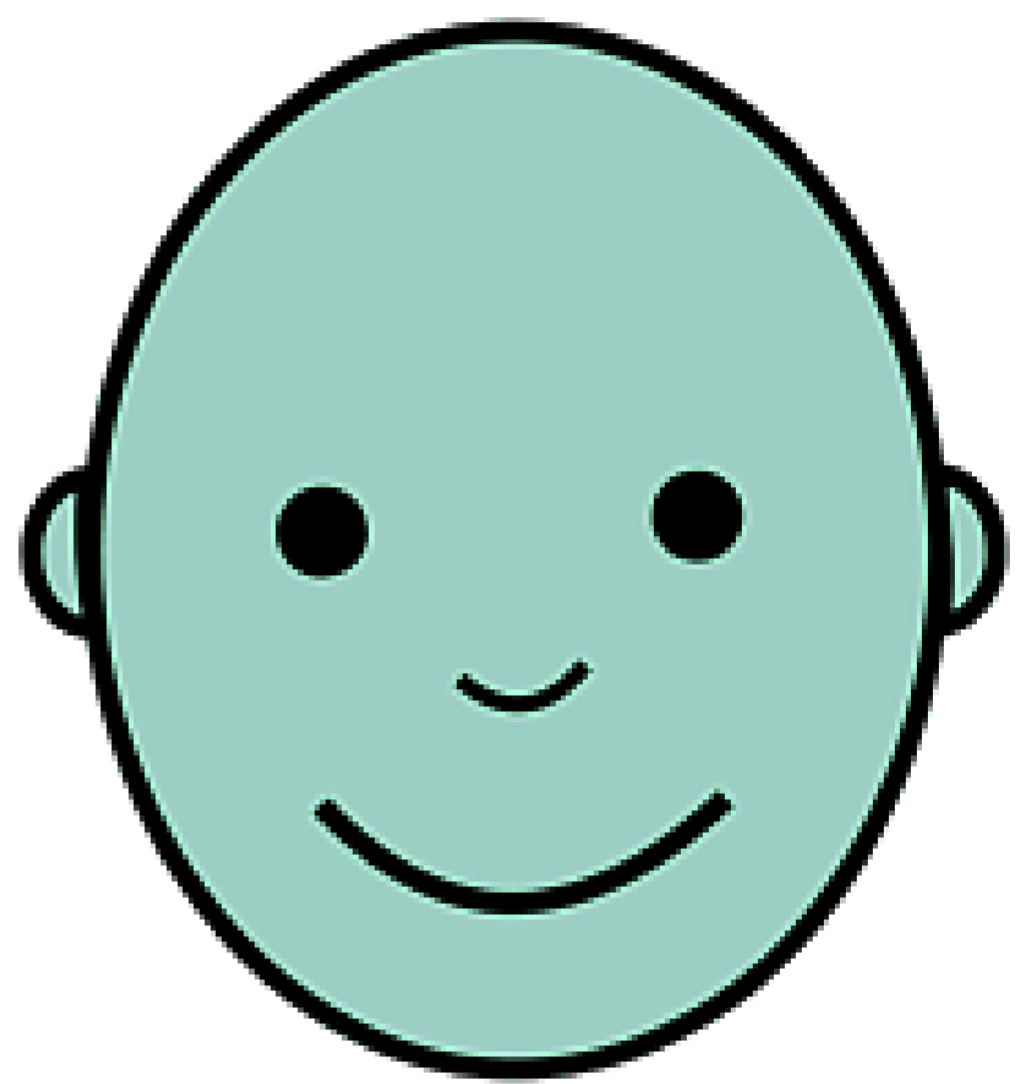

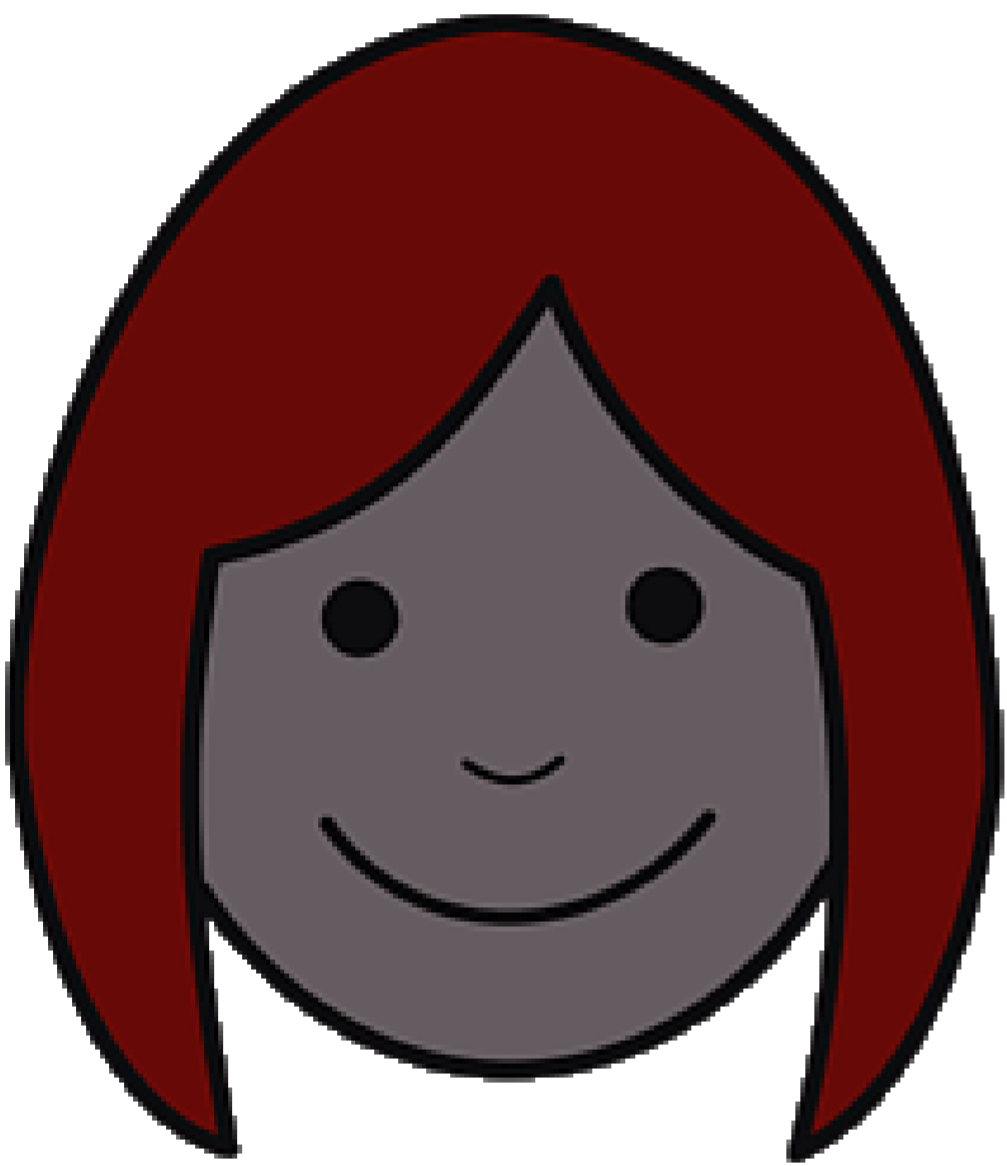

If I don't follow the
directions I am given I
could get lost

or I could get stuck when I
am doing a task

If I try very hard to listen
and follow directions

I can feel proud and this
will make everyone happy
