

A SOCIAL STORY

Taking Turns

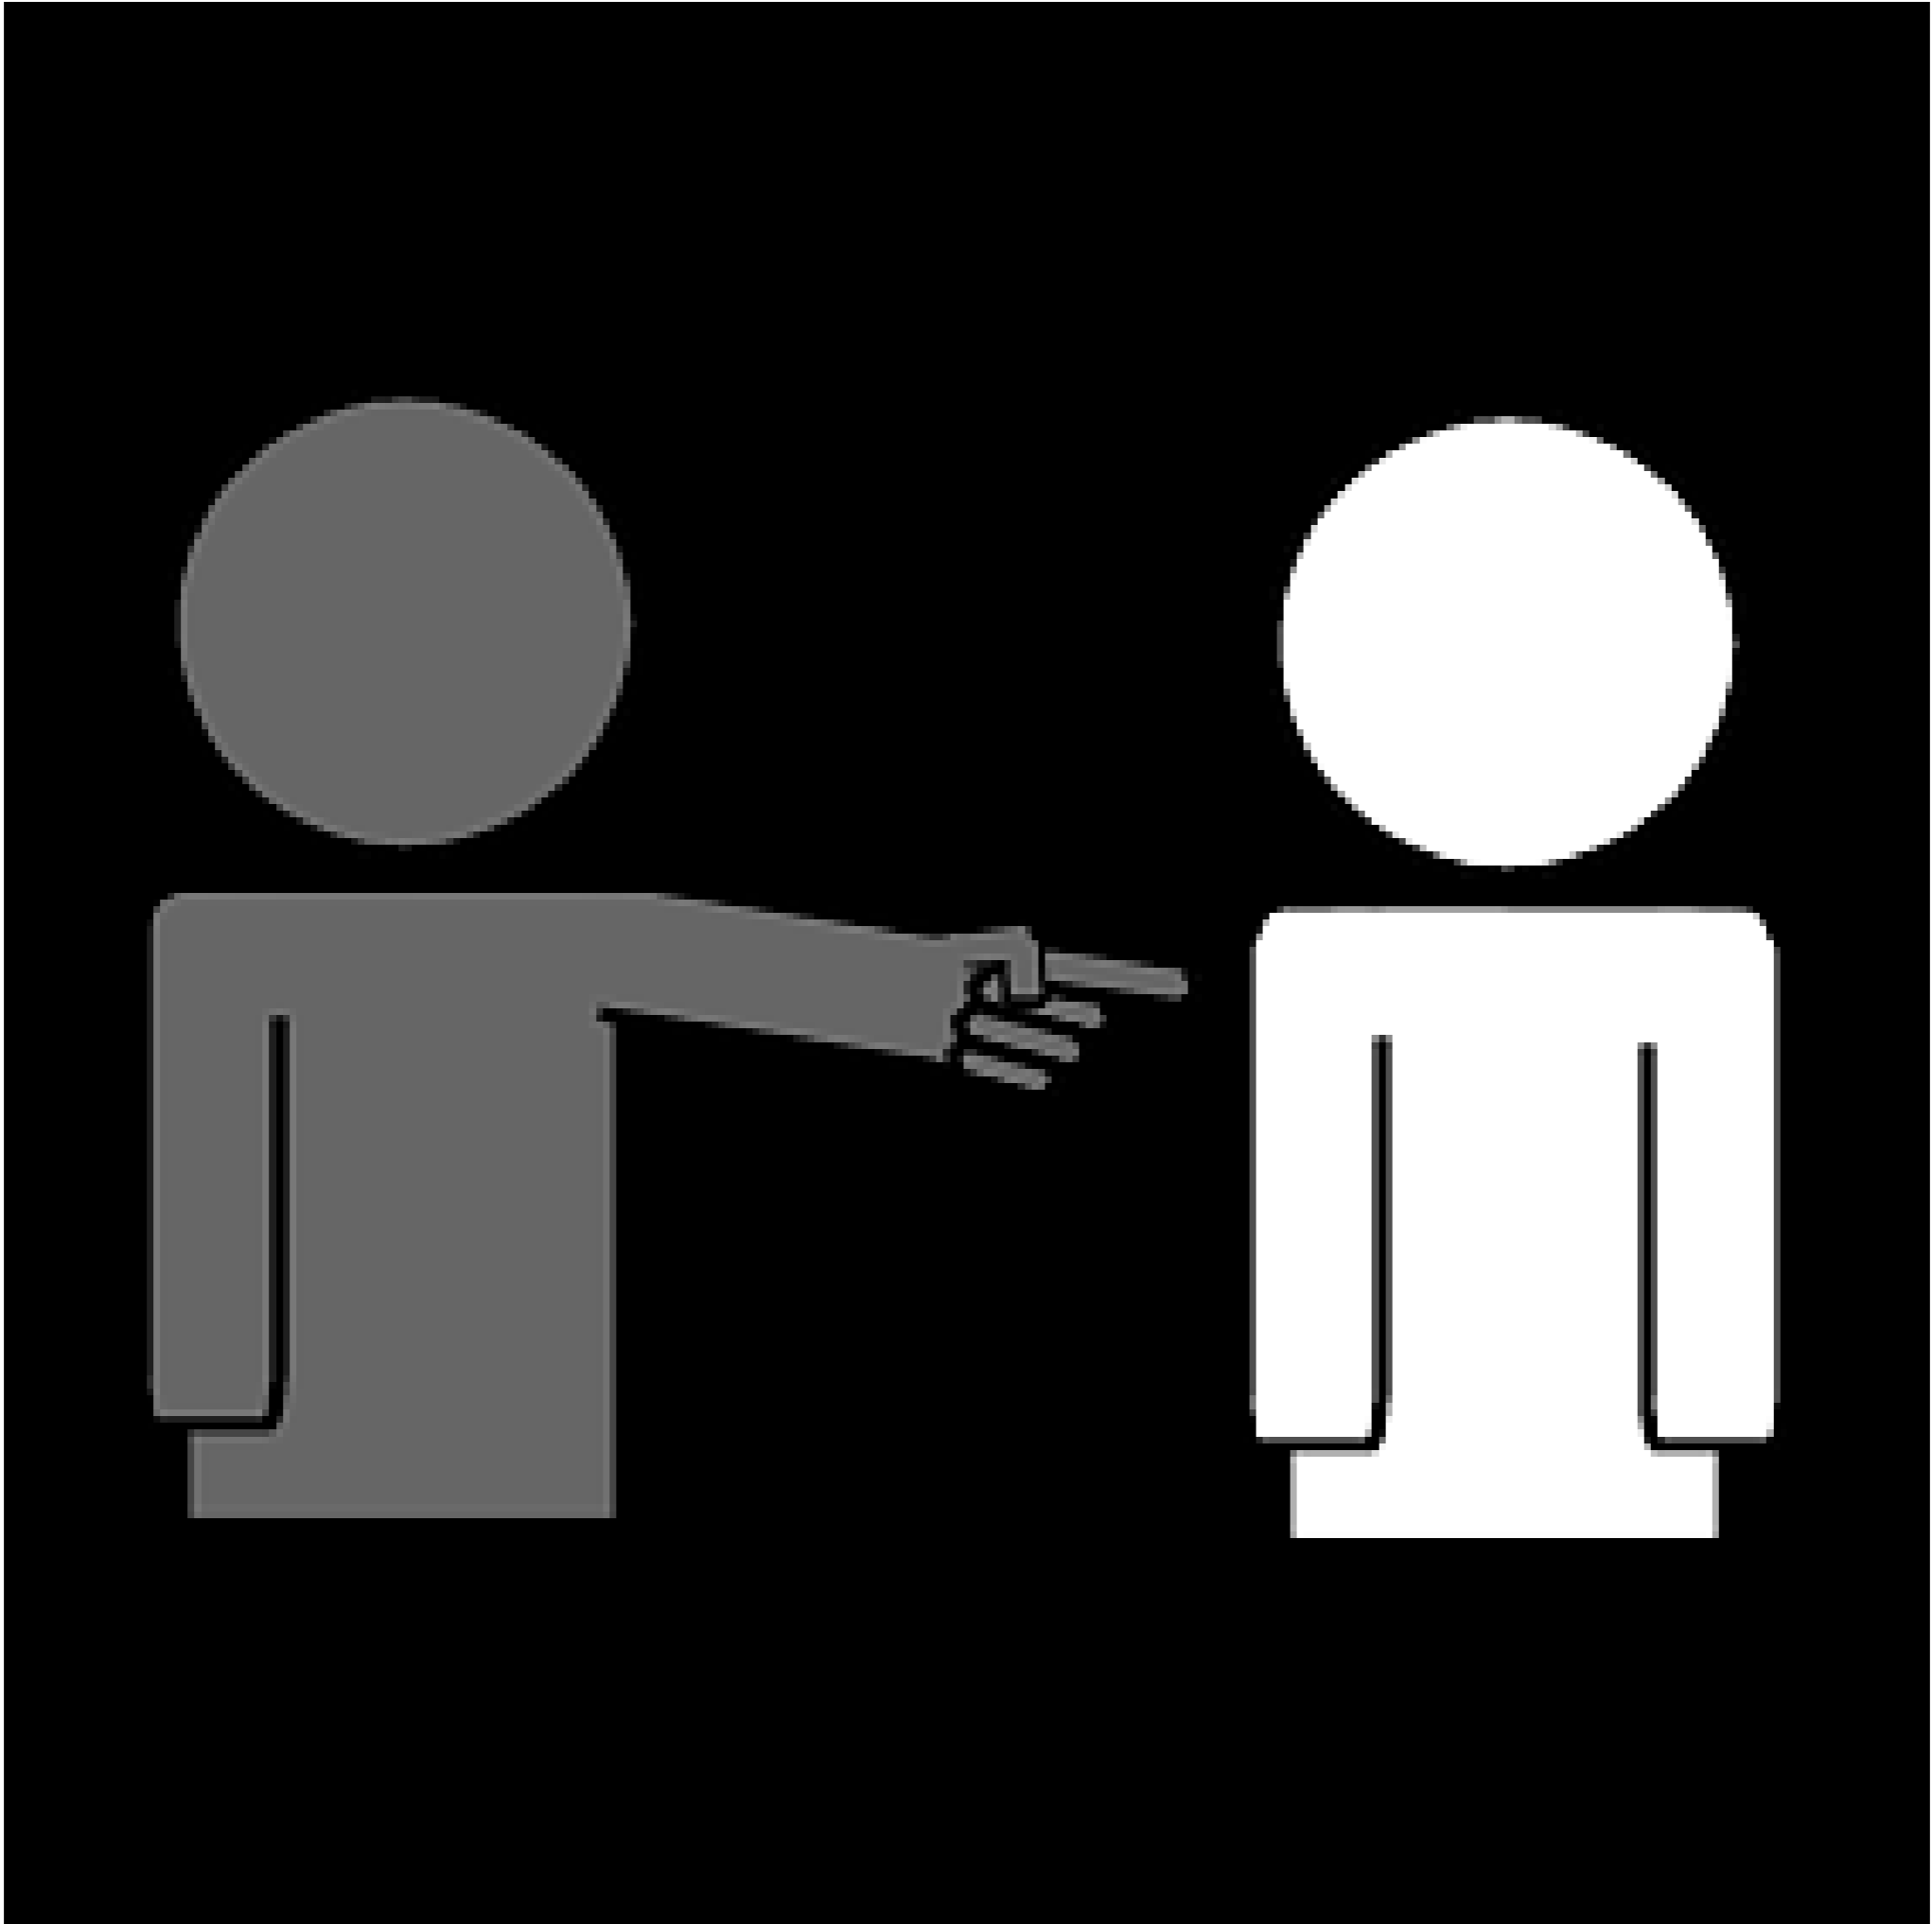

Playing games can be fun, some games are played outside and some are inside games with a dice or games console

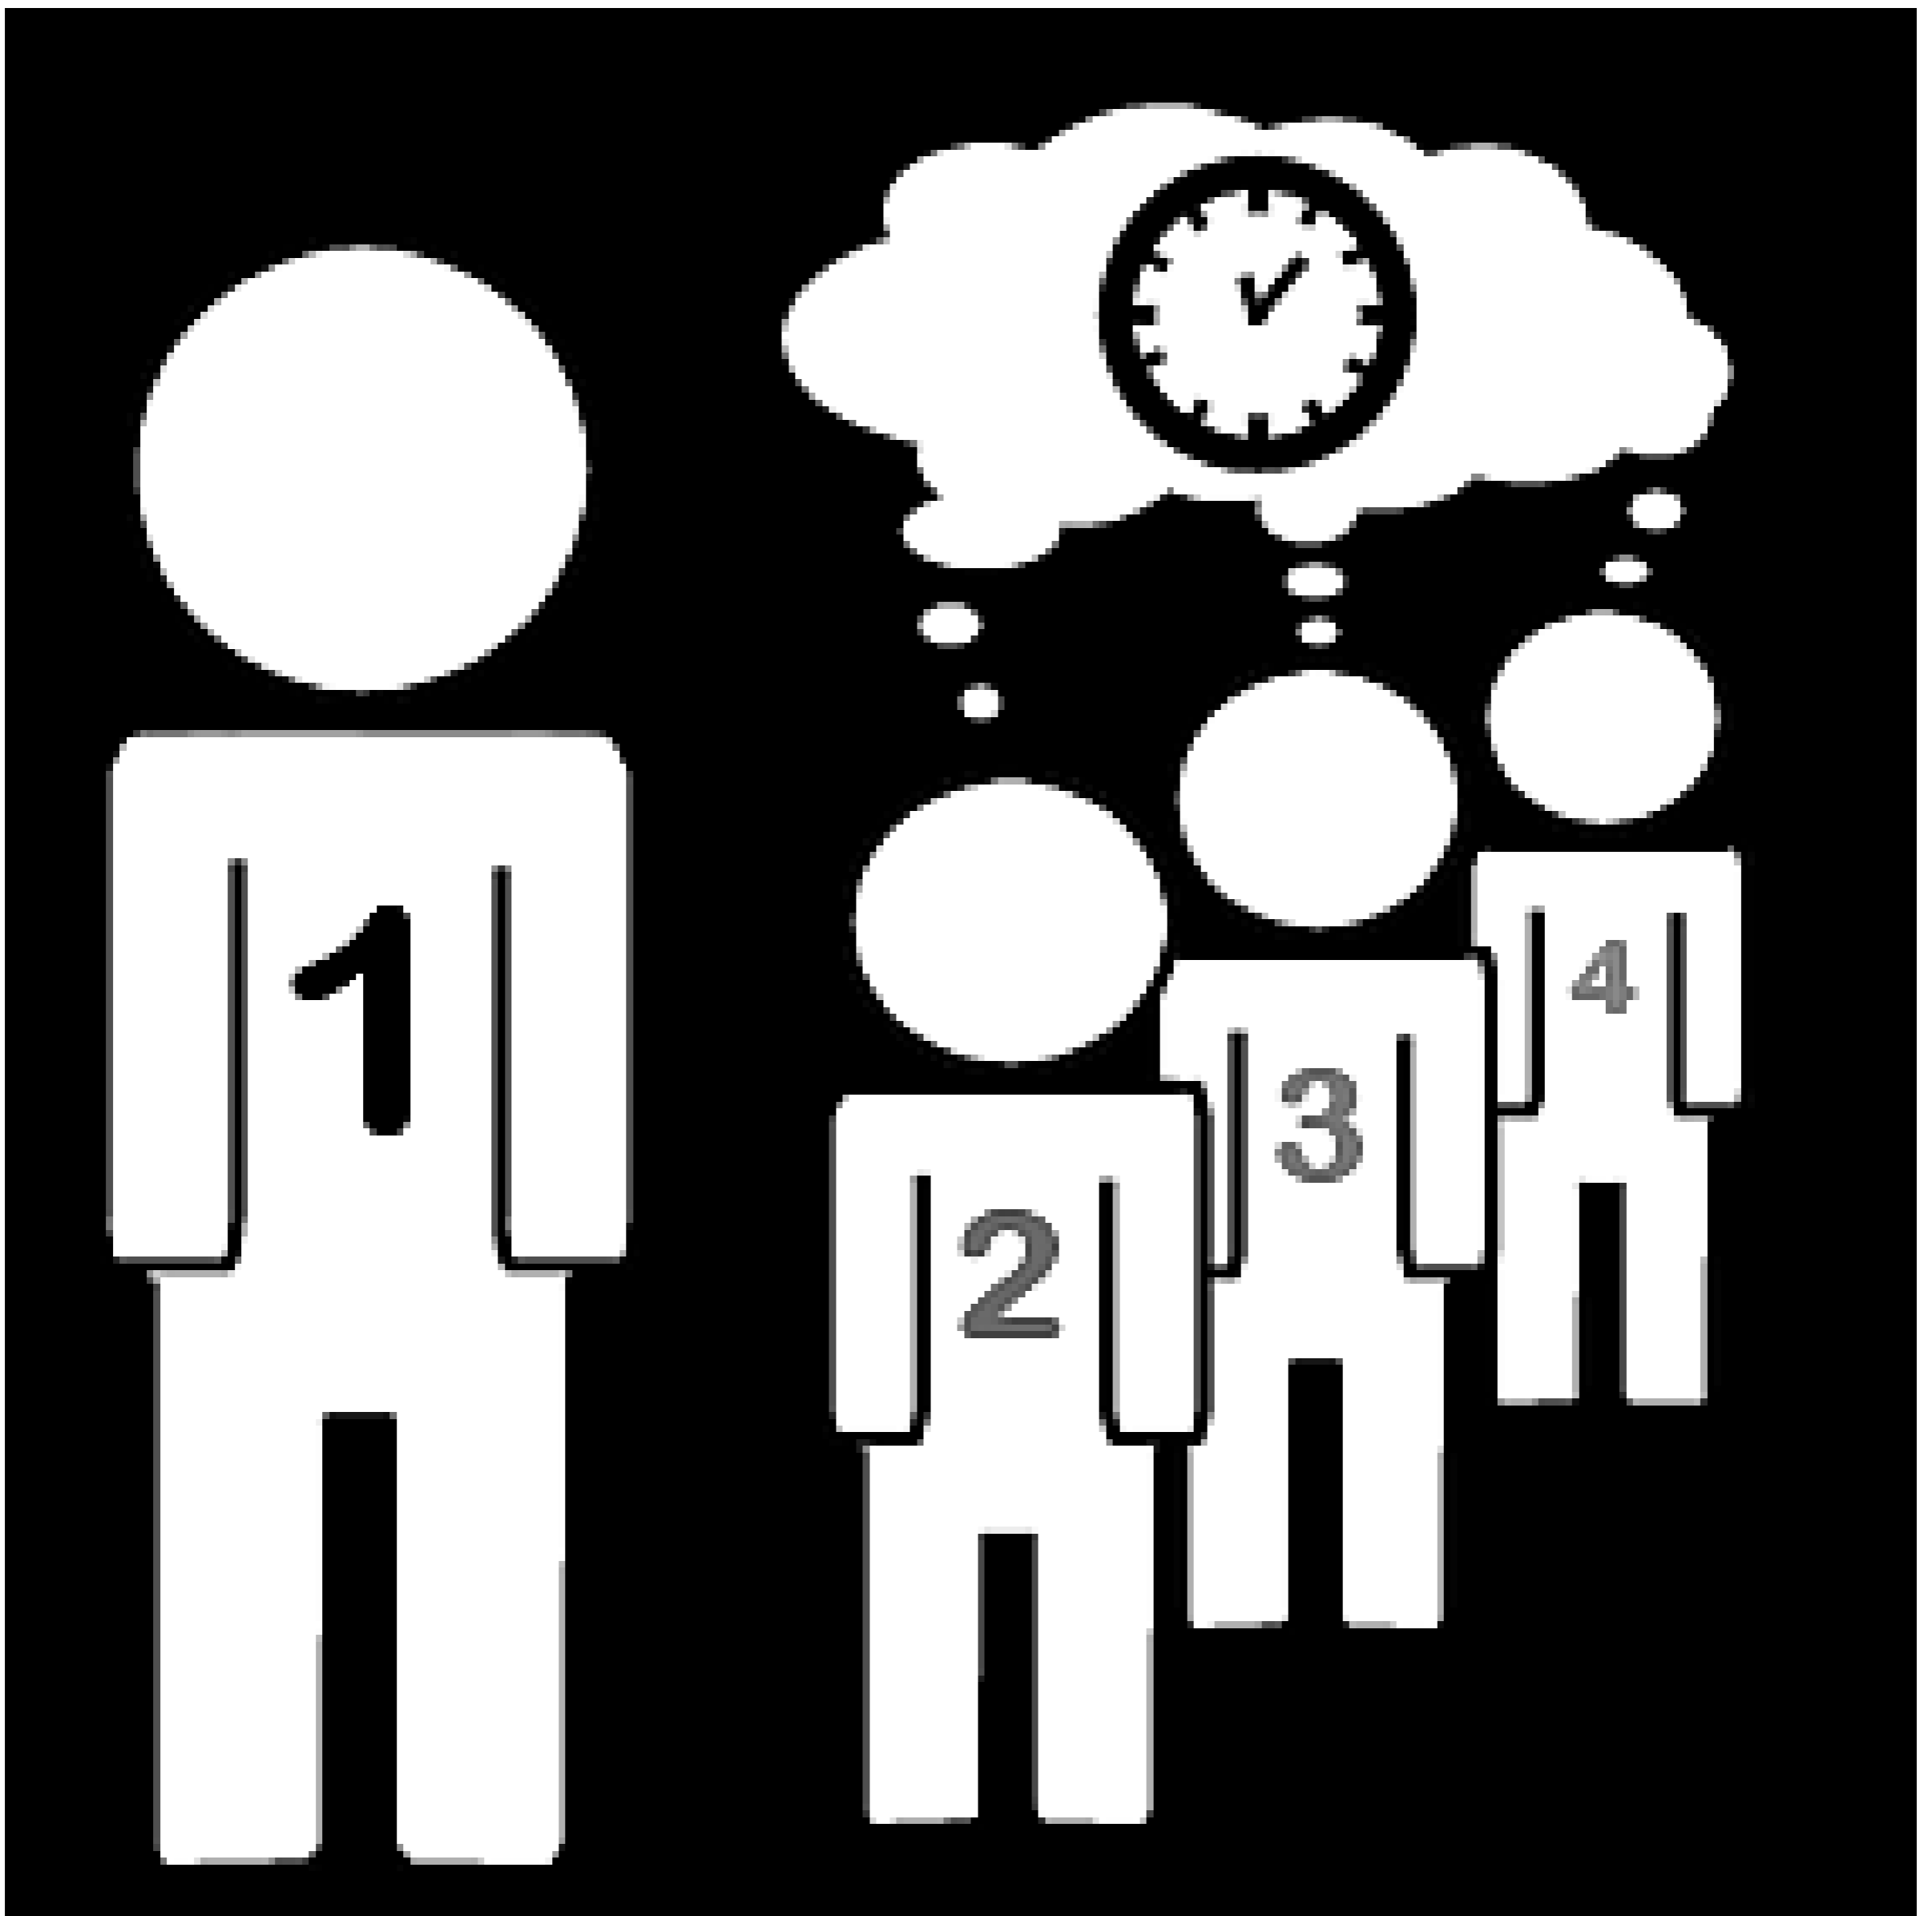

When I play games with
other people sometimes
it will be my turn

and sometimes it will be
their turn

When it is my turn
everyone will wait for me
to have my go

When it is someone else's
turn I should wait patiently

While they have their go

If I can remember to wait
for my turn then the game
will be more fun

If I can take turns I can feel
proud and everyone will be
happy
